Honorable Jessica Rosenworcel, Chairwoman  
Federal Communications Commission  
45 L Street NE  
Washington, DC 20554

Dear Ms. Rosenworcel,

I am writing to endorse the application of John Fogle, a member of the Loveland, Colorado City Council, to continue and renew his participation in the FCC's IAC.

I worked with Councilor Fogle for six years in support of our City's project to provide a municipal fiber-optic broadband utility service. I ran the political campaign that resulted in an 80% favorable citizen vote, and continued thereafter to work with Mr. Fogle through the process that led to funding, approval and construction of our network.

During that process, John worked diligently with us and with the relevant City committees. Later he joined the IAC and I am confident that his knowledge of the technology and politics of this issue make him an informed, effective, valuable contributor.

Now, Northern Colorado cities including Fort Collins, Loveland, Longmont and Estes Park are all cooperating to expand affordable, universally accessible broadband service throughout our cities and out into Larimer County. John Fogle, and Loveland, are central to that expansion. This will provide many ancillary benefits, for example in education, public safety and electric grid management. Excellent communication services are an absolute requirement for the economic growth of Northern Colorado.

I believe the FCC benefits from input and advice of experienced citizens. John is a committed local mover who truly understands what it takes to make this work happen. Please consider including him in the next cycle of IAC work. He will contribute effectively to your mission.

With kind regards  
Roger Ison
